Full-stack engineer building secure web apps and cybersecurity SaaS with TypeScript, React/Next.js, and Node.js. Strong problem-solving skills and product focus. Skilled in server-side optimization, API architecture, refactoring, coding standards, and design patterns to boost release velocity and reliability.

## Technical Skills

**Full-Stack & Languages:** TypeScript, JavaScript, Python, Ruby

**Frontend:** React, Redux, Next.js, HTML, CSS, Tailwind

**Backend & APIs:** Node.js, Express, Ruby on Rails, GraphQL, REST APIs, API design, microservices

**Data & Scalability:** PostgreSQL, Prisma, SQL, data structures, scalable systems, performance optimization

**DevOps & Quality:** Docker, CI/CD, GitHub Actions, Jest, React Testing Library, unit testing, troubleshooting

## Work Experience

**Full-Stack Software Developer** | Jan 2021 - Oct 2025

*Anchor Technologies, Inc. | Remote*

- Led end-to-end development of a Third-Party Risk Management SaaS through production launch.
- Optimized PostgreSQL parsing and indexing, cutting query payloads by 40% and improving retrieval speed.
- Increased release velocity by 25% by streamlining GraphQL/REST endpoints and reducing API redundancy.
- Built Python/Node.js microservices integrating external APIs for secure data exchange.
- Improved performance and maintainability with modular React architecture, refactoring, and debugging.
- Partnered cross-functionally to translate business needs and design mockups into clear technical requirements.

## Projects

**Freelance Software Engineer**

*Various Clients (Contract)*

Selected freelance projects across full-stack development.

- Optimized a Ruby on Rails + MySQL app in Docker, refining migrations, controllers, and background scripts.
- Built a Node.js/TypeScript API service with auth endpoints, unit tests, and an email reporting system.
- Contributed to a React/Tailwind app, shipping responsive UI and cross-browser compatibility fixes.

## Education

**Flatiron School** | Certificate in Full-Stack Software Engineering (Ruby on Rails & JavaScript) | Seattle, WA | 2020

**College of Management** | Bachelor of Arts in Media Studies & Management | Rishon LeZion, Israel | 2011
